

**Kuk Ling Yuk Cathy**

**University of Hong Kong (HKU)**

**2011 CSE Alumni in Hong Kong**

**What are you studying now at university?**

I am currently in the MBBS programme under Faculty of Medicine in HKU.

**What is one highlight of CSE that still remains with you today?**

The High Table Dinner and the show after that are still vivid in my memory. Knowing that it is one of HKU's traditions was one of the reasons why I wanted to attend HKU because it was such good experience.

**What did you draw from CSE that you still reflect upon in your current studies?**

During my time in the CSE programme, I had to communicate with my groupmates; all of whom are talented, about presentations and projects. This skill is something I still do when I have to do presentations and projects which is a big part of my university life.

**What summer programme or long-term extracurricular activities did you participate in while in secondary school?**

I also participated in various summer programmes such as English Language Leadership Program offered by the Hong Kong International School and HKU and the World offered by the HKU. I also spend most of my spare time during the school year on volunteer service.

**What about university life do you wish to share with CSE 2014 participants?**

I would be very happy to talk with the participants about the way lessons are conducted and what university students generally do in their leisure time.
